## Guidelines for Tiger Rehabilitation: Anti-Parasite Drugs

| DRUG NAME | TRADE NAME(S) | COMMENTS |
|---|---|---|
| | | |
| Albendazole | *eg: "Albenil"* | Used against nematodes, some cestodes and some trematodes<br>Oral |
| Fenbendazole | *eg: "Panacur"* | Used against nematodes & Giardia<br>Oral |
| Fipronil | *eg: "Frontline"* | Used for ectoparasites<br>Spray on |
| Fluralaner | *eg: "Bravecto"* | Used against ectoparasites<br>Oral or spot on |
| Ivermectin | *eg: "Ivomec"* | Used against nematodes & ectoparasites<br>Injection or oral |
| Levamisole | | Used against nematodes<br>Oral |
| Metronidazole | *eg: "Flagyl"* | Used against protozoa<br>Oral |
| Praziquantel | *eg: "Droncit"* | Used against cestodes<br>Oral |
| Pyrantel | | Used against nematodes<br>Oral |

**NB –** there are many convenience products on the market that contain combinations of anti-parasite drugs to make treatment of mixed nematode / cestode / ectoparasite infestations easier (eg *"Broadline"* made by Merial Animal Health).
